# Welcome

**The Volvo Group Supplier Portal is on its way to become the single source for information and the dedicated working tool for Volvo partners.**

**This platform enables 3 major activities:**

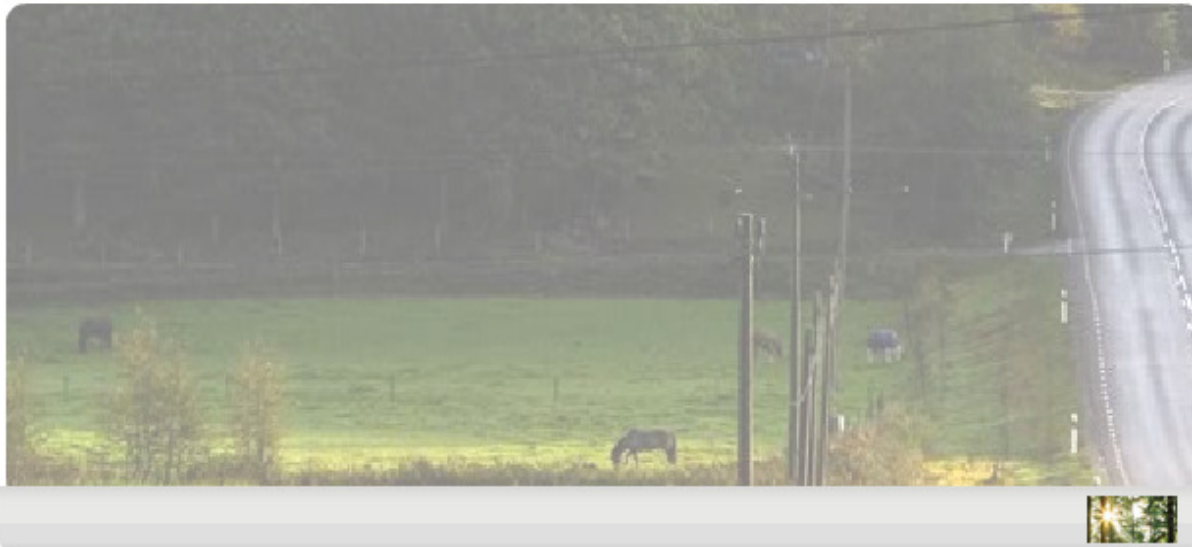

- Introduce the Volvo Group purchasing departments and attract new suppliers: questionnaire, contacts...**
- Provide to Volvo current suppliers, by secured access, general information about the company working methods.**
- Extend access to selected partners, giving them a customized access to Volvo internal applications with one ID and password: Web EDI, VSIB/Scorecard, and eLibrary...**

**If you are already registered you are welcome to connect directly here:**

**<https://xnet.volvo.com/xnet/resources/login.aspx?entrydomain=supplierportal.volvo.com>**

**If you are not yet registered, please use this link**

**<http://www.volvogroup.com/SUPPLIERS/GLOBAL/EN-GB/Pages/home.aspx>**

## My Business

The Volvo Group Supplier Portal is the common online collaboration platform for the Volvo Group and its supplier.

On the left you can see a list of the applications you need to access, to handle your daily business with the Volvo Group.

The Supplier portal act as an umbrella hosting supplier oriented applications.

On each page you will find a short description of the application and the specific contact information.

Depending on your access rights you will see the different applications you have access to in the left menu. If you think you do not have proper access rights please contact our helpdesk:

[cmsservices@volvo.com](mailto:cmsservices@volvo.com)

**Get access to the applications  
you are allowed to.**

## WebEDI

### [Connect to WebEDI](#)

Click here to start your  
Web EDI session

WebEDI is a complementary solution to classical EDI.

For some suppliers it is an interim solution until EDI is established, for others it might be a permanent solution.

The application is connected to Volvo's EDI gateway.

WebEDI is supporting

- the inbound logistic flow when calling off/forecasting material
- for suppliers to advice and invoice their deliveries to Volvo
- for Volvo and suppliers to exchange drawings and models

Main Contact Info:

Phone : +46 31 66 22 00

For North American users please contact our US support [US Support](#)

For all other users please contact our European [Support EU Support](#)

## Collaboration

Collaboration over the Net is a key asset to increase work efficiency and speed. Volvo considers online collaboration as a great opportunity to exchange information in a timely and cost effective manner.

To achieve this we deploy inovative tools such as Teamplace and Livemeeting to better support our daily work .

**Collaboration tool within Volvo

## Portal Guide

The Volvo Group Supplier Portal is one step of an E-business strategy driven by the Volvo Group. It was created in 2005 with the objectives to become the single source of information and a dedicated working tool for today's and tomorrow's Volvo partners.

This platform functions in three major phases:

- Introduce the Volvo Group purchasing departments and attract new suppliers: questionnaire, contacts...
- Provide to Volvo current suppliers, by secured access, general information about the company working methods. Organize existing and future Volvo supplier information, giving them access by a secured way to an electronic library which regroups all the detailed documentation needed for the daily activity: access to specifications, internal processes...
- Extend access to selected partners, giving them a customized access to Volvo internal applications: eSourcing portal, database, online part design and to confidential information. As one more step towards E-commerce, this website allows worldwide suppliers to work online with the Volvo Group.

On the left menu you will find all the information you need to navigate on the portal and use it as an effective and interactive tool.
